### L'AMARONE DELLA VALPOLICELLA

Amarone della Valpolicella is to all intents and purposes a raisin wine. It seems that at the base of the process that made famous this great red wine from Veneto there is actually a mistake. Legend has it that in 1936 the cellar master of Cantina Sociale Valpolicella, Adelino Lucchese, coined the term Amarone after having tasted a sample from a barrel of Recioto "forgotten" in the cellar.
